

## Summer 2024 – Events at Gunnersbury Park

Dear Resident or Business Owner,

We would like to share details of the summer events that Gunnersbury Park will be hosting this year.

In this letter you will find:

- the detailed event schedule with more information on each event
- guidelines on how to get in touch with us before and during the events
- details of public consultation meetings, providing the opportunity to discuss events directly with the organisers and learn about the projects and benefits that will be on offer for the local community including the chance to win event tickets.

These events provide vital income to enable the Gunnersbury Museum and Park Development Trust to maintain the estate and continue serving the community. Whilst the events bring many benefits to the local area, we'd also like to acknowledge that this programme may be unwelcome for some local residents and stakeholders. We would like to assure you that we are working tirelessly to address your concerns and would like to thank all of you who have provided feedback and contributed to the process.

We have created a dedicated section on our website for all residents, local businesses and stakeholders where all information related to the events programme is collated. We hope you will find this useful. You can access this via the link below:

### Improvements for 2024 Events

**Sound Management:** *We take our responsibilities to local residents very seriously and have once again commissioned an independent acoustic consultancy to review all the events from 2023 and the complaints received directly from local people and from Ealing and Hounslow councils to make further recommendations to reduce the impact of bass frequencies which were cited by many complainants. Our acoustic consultants will be present at each of the events this year carrying out an additional layer of sound monitoring and we will share more detail on sound mitigation activity and other improvements at the resident meetings. Frequently asked questions for each event are now available on the website.*

**Toilets:** *Soho House Festival are increasing toilet facilities by 50% and Festival Republic by 65% this year at strategic locations in response to feedback from residents. Waterworks will be doubling their toilet provision this year as well as increasing toilet signage by 50%.*

**Signage:** *Soho House Festival and Festival Republic are introducing additional signage on the route from Acton Town station to the park. Waterworks are increasing wayfinding signage by 50% across the site. We are working with the organisers to make the signage clearer and more effective and ensuring they are displayed in good locations along the paths. In addition, Gunnersbury Park is introducing additional signage within the park to aid wayfinding for park users, including clear directions to crossing points.*

Please do not hesitate to contact us if you need any more information.

Yours faithfully,

*Julia Mattingley*
